

Preliminary list of speakers*

Prof. Dr. Marco Menegotto, President of Italian Association for Structural Concrete (AICAP), Italy
Evolution of Industrial Prefabrication in Europe

Prof. Dr. Thanasis Triantafyllou, University of Patras, Greece
Innovative Prefabricated System for Combined Structural and Energy Retrofitting of Buildings

Dr. Juergen Oecknick, Managing Director, PSA Zurich Area GmbH, Switzerland
Can the "Façade Handicraft" be Exported. Part 1

Michael Erhardt, CEO, Hemmerlein Ingenieurbau GmbH, Germany
Can the "Façade Handicraft" be Exported. Part 2

Prof. Oliver Kinnane, University College of Dublin, Ireland
Material and Dimensional Innovations in Precast Cladding

Konstantin Kuznetsov, CEO, DSK-1 AO, Russia
Modern Tasks of Precast Housing Construction

Dr. Igor Tikhonov, Head of Designing and Testing Center, Research Institute of Concrete and Reinforced Concrete (NIIZHB) named after A.A. Gvozdev, Russia
Designing of Precast Elements with New Types of Reinforcing Bars

Dr. Ulrich Lotz, CEO of German Precast Concrete Associations of Baden-Württemberg, Chairman of BetonTage Congress, Germany
Serial and Modular Building in Germany: Precast Concrete Buildings as Winners of a European Subscription on Cost-Efficient, Fast and High-Quality Buildings

Dr. Sergey Zenin, Head of Laboratory of Structural Concrete and Construction Systems Theory, Research Institute of Concrete and Reinforced Concrete (NIIZHB) named after A.A. Gvozdev, Russia
Development of Normative Base for Large-Panel Construction Systems

Eugen Weber, Head of Technical Services, German Precast Concrete Associations of Baden-Württemberg, Germany
Light-Weight Building With Concrete – State-of-the-Art and Future Perspectives

Paloma Cristina Frías de León, Project Leader Additives & Fillers, Tolsa S.A., Spain
Advanced Rheology Modifying Admixture (ARMA) for Concrete Applications

Juan Manuel Pereira, CEO, Concrete Quality, Spain
Innovative Software for Concrete Composition Optimization

Roman Rezayev, Leading Research Fellow, Tomsk Technical University, Russia
Optimization of Aggregate Packing Density to Improve the Productivity of Different Concretes Production

Dmitry Kuzevanov, Senior Research Fellow, Laboratory of Reinforced Concrete Structures and Quality Control, Research Institute of Concrete and Reinforced Concrete (NIIZHB) named after A.A. Gvozdev, Russia
Prospects of using BIM-technologies in the precast concrete industry

Organizers: International analytical review
«ALITinform: Cement. Concrete. Dry mixtures»
Tel. +7 (495) 580-54-36, +7 (812) 335-09-92 sub@alitinform.ru

Evgeniy Filatov, Head of Construction Laboratory, Nadezhda Universal Construction Company, Russia

Features of the use of domestic pneumatic equipment in the construction industry

Sergey Antonov, CEO, PROZASQ, Russia

Legislation on fire resistance of reinforced concrete structures

Stanislav Shcheglov, Head of the "Energy Efficiency of Buildings", expert of the TECHNINICOL Corporation, Russia

Order of the Construction Ministry of the Russian Federation № 1550 / pr. Methods of meeting energy efficiency requirements for multi-apartment residential buildings

Bruno Alberto Dal Lago, Adjunct Professor and Researcher, Politecnico di Milano, Italy

Recent advances and experimental findings on the structural behaviour of an innovative dry-assembled precast concrete wall system

Valentina Stepanova, Head of the Laboratory of Corrosion and Durability of Concrete and Reinforced Concrete Structures, Research Institute of Concrete and Reinforced Concrete (NIIZHB) named after A.A. Gvozdev, Construction Research Center, Russia

Application of composite polymer for the reinforcement of concrete structures and products

* The list is subject to change
